DETAILED ACTION

Claim Objections

In view of the amendment filed on 01/19/2006, the Examiner withdraws claim objections to claim 40 of the previous Office action.

Response to Arguments

Applicant's arguments filed on 01/19/2006, with respect to claims 31 and 38 have been fully considered and are persuasive. The rejections of claims 31-41 have been withdrawn.

Allowable Subject Matter

Claims 31-41 are allowed.

The following is an examiner's statement of reasons for allowance: claims 31-41 are allowed because the references cited fail to teach, as applicant has, a decision processor, connected to a master and responsive to the metric processor, for changing phase of a Slave Tx clock relative to a Slave Rx clock in the corresponding one of the slaves in order to maximize the metric signal produced by the metric processor and thereby reduce distortion caused by near end cross-talk and echo in signals received over the channel by a receiver in the master and thus facilitate clock and data recovery by the receiver, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
